"The most radiant windows illumine men's minds so that they may travel through it to an apprehension of God's light."

For this purpose, the sanctuary of Normandale Lutheran Church is filled with light. Colored light is refracted through symbols in the stained-glass side windows. The sanctuary has twenty-one (21) stained glass windows. These windows form two (2) separate sets, distinguished not only by their creator and time of installation, but also by their unifying theme.

Join us **Sunday, August 3** for a tour through each one of these stained glass windows in our sanctuary that will allow you the opportunity to look at our place for worship in a completely different way.
